Hello

I'm not sure where to start. I live off South Lexington and have been wondering when something was going to be done about speeding and not stopping at the stop signs.

Matter of fact 3 weeks ago on a Saturday afternoon I had someone pass me doing over 50 mph because I was only doing 27mph. I have it on video as my cars have dash cams in them. It's very dangerous for kids and adults as things happen all the time.

I realize that we can not have a law enforcement officer sitting on the street but maybe put one officer on rotation twice a month. I would love to see these people get a ticket. I can also say that I bet the ones speeding down these streets are cutting through to avoid oak avenue and the corner of Bidwell.

This needs to stop!!!!

I really wish I could be there but I'm a working guy and want to keep my job. If you have any questions for me please feel free to contact me I would be more than happy to help anyway I can.

Thank you again for your time.

Mike

Thank you so much for discussing this issue. I have lived here on S Lexington for the past 3 years now.

I have seen truly negligent speeding on S Lexington almost every day. This is most apparent during rush hour times etc. People sure are busy going to jobs and probably need to get the kids to whatever and such but the speeding is insane. The traffic is also way more than I would expect for a neighborhood. People must be making a cut through the neighborhood for one reason or another.

The very least and minimum you can do is put speed bumps on this road and the giant speeding sign showing people's speed. Maybe put a cop out there and give a few tickets. Definitely reasonable for the people i have seen going 50 mph in here.

I would also recommend a stop sign at Folsom and Duxbury as a way to slow things down.

This still will probably not be enough. I now have an infant and will need to move before he starts venturing on his own outside or wanting to ride a bike.

Thanks for addressing this.

Hello,

I live on the corner of Reeves and South Lexington Dr. and it is absolutely horrendous the number of cars I witness on a daily basis that speed through the stop sign at 35 plus mph. I only know this because my 2 year old loves watching cars and this is part of daily routine. I absolutely believe something needs to be implemented to improve the traffic safety on S. Lexington.

Thanks,
Parisa

Thank you for any improvements that can be made. I have thought about bringing this issue to the attention of the city more than once and am thankful that someone did, or the city realized the issue some other way.

Please do something smart before something dreadful happens.
