SUBJECT: Approval Letter: Design Review Approval of an 830-square-foot addition to an existing residence at 2100 Carroll Drive (DRDL23-00065)

The City of Folsom Community Development Department has reviewed an application for Design Review for a 830-square-foot addition to an existing residence at 2100 Carroll Drive. The Community Development Department has made the decision to conditionally approve the application based on the following findings:

- The project is compliant with the General Plan, the Zoning Ordinance, and all applicable Specific Plans;
- The project is in conformance with all applicable city-wide design guidelines;
- The project is in conformance with all applicable project-specific design guidelines and standards approved through the Planned Development Permit process or similar review process;
- The project provides compatibility of building materials, textures, and colors with surrounding development and consistency with the general design theme of the neighborhood;
- The project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) under Section 15303 (New Construction or Conversion of Small Structures) of the CEQA Guidelines.

The project is subject to the following condition(s) of approval:

1. A building permit is required. Plans submitted for a building permit shall be in substantial conformance with the attached drawings to the satisfaction of the Community Development Department.
2. Please note on the elevations of the plans submitted for a building permit that the exterior colors, materials and level of window trim of the addition shall match that of the existing residence.
3. If any protected trees are to be affected by construction of the proposed project, a tree permit would be required.
4. If a complete application for a building permit is not submitted within two years of this approval, this design review approval will expire.

5. A tree permit shall be required to account for encroachment of the driveway extension into the dripline of a protected street tree. If the project proponent opts to remove the protected street tree, a tree removal permit shall be required and a replacement street tree planted on the property prior to the final inspection for the certificate of occupancy.

The application is subject to a ten-day appeal period which commences on July 7, 2023 and ends on July 17, 2023. Should you have any questions regarding this letter, please do not hesitate to call me at (916) 461-6209 or email me at jkinkade@folsom.ca.us
