

Table of Contents

Introduction.....	1
1.0 Goals and Objectives.....	5
1.1 Relationship between this Plan and other Planning Efforts.....	5
1.2 Goals of the Bicycle Master Plan.....	6
2.0 Existing Conditions.....	14
2.1 Methodology.....	14
2.2 Definition of Bikeways.....	14
2.3 Existing Bicycle Facilities.....	19
2.4 Current Conditions and Constraints.....	22
2.5 Bicycle Parking Facilities.....	25
2.6 Bicycle Safety.....	29
2.7 Existing Bicycle Safety Programs.....	30
2.8 Programs Offered.....	34
2.9 Relevant Legislation.....	34
3.0 Needs Analysis.....	38
3.1 Commuter and Recreational Needs.....	40
3.2 Needs Analysis.....	42
4.0 Safety, Education, Outreach, and Security.....	45
4.1 Bicycle and Pedestrian Safety Education Programs.....	45
4.2 Education.....	45
4.3 Community and Employer Outreach.....	48
4.4 Other Safety Improvements.....	50
5.0 Multi-Modal Connections.....	51
5.1 Existing Connections.....	51
6.0 Recommended System & Improvements.....	53
6.1 Bicycle System.....	53
6.2 Creating a Bikeway System.....	57
6.3 Description of Proposed Bikeway Improvements.....	59
7.0 Design and Maintenance Standards.....	73
7.1 Existing Bicycle Design Standards and Classifications.....	73
7.2 General Design Recommendations.....	73
7.3 Class I, II, & III Bikeway Design Guidelines.....	74
7.4 Other Facilities.....	78
7.5 Monitoring, Maintenance, and Security.....	93
8.0 Implementation Strategy.....	96
8.1 Cost Breakdown.....	96
8.2 Funding.....	96
8.3 Financing.....	104
